11 may 1988 1:30 p.m.

attention: dr. r.-a. walk

dear roger:

i just returned from a 2 day ciar meeting in myrtle beach, south carolina and found a message that you had called yesterday and will call again on friday. i'm sorry that you did not get the information about my schedule for this week. i included it in a telex to dr. hackenberg on 3 may.

i will be visited by 3 attorneys tomorrow and friday. (we want to begin preparations in case the litigation in texas resumes in the next few weeks.) if you want to call on friday, i would suggest that it be around 12:00 our time (6:00 p.m. your time). otherwise we should wait until monday.

by the way, it was decided at the last moment that dr. osdene would not testify in the trial in new jersey. thus, all the time and preparation (and mental anguish) he went through was all for nothing. such is the way with these cases.....

nothing definite has been decided as yet, but dr. osdene and i have talked about the possibility of my joining him when he visits inbifo on 9-10 june. if we decide that i should also be there, i will probably want to come earlier that week so that i can spend a day or two getting caught up with your research efforts. please let me know if that would pose a problem for you or your colleagues. if i do come i would leave to return home on saturday, 11 june. i will not be going to london to attend the perry meeting.

best regards,

bob pages
